### POLITICAL LITERATURE

The attacks being made on the state officials by the News are being printed in an extra edition by order of the Chairman of the Republican State Central Committee and being sent over the state with the idea that the articles will assist the party in its fight next fall for the control of the State offices.

The fact that not a single office in the State Capitol building has ever suspended business a day in the last fifteen years or ever been in a condition where all its business could not be legally transacted, cuts no figure with the facts apparently.

The State Central Committee has ordered the attacks made and so much space must be filled and so many pounds of "literature" must be sent out.

Now the Appeal would respectfully suggest to the News that it would be able to put its time in to more advantage if it investigated the \$9000 shortage which still exists in the campaign funds of the Republican State Central Committee, the Committee which is so industriously circulating these attacks. This mystery of the last campaign has never been successfully cleared up and the News would make a nice scoop if it could locate the shortage and give it to the world.

It would make more of a sensation not only in Carson but all over the state than any thing it might be able to say about the present state of offices.

The Republicans, who are crying for "reform and an honest government" don't seem to be able to run their State Central Committee through three months of a campaign without the mysterious disappearance of \$9000 and this being an established fact it puzzles many people to know how a Republican set of state officers placed in power by this same Committee could expect to run four years with the state funds intact.

These are simple questions in question which are interesting to the taxpayers at this time.

It is said that the fire Insurance Companies of the United States will raise rates 25 per cent to recover the losses of the late San Francisco calamity.

The people who are contributing so liberally to San Francisco's distress should remember that San Jose, Santa Rosa, Fort Baag and other towns in California suffered greatly from earthquake and are in sore distress.

A Missouri woman, who was one hundred and four years of age cut her throat. She must have reached the conclusion that she couldn't die a natural death.

E. T. Glanis who attempted to hold up the Oberon games in Reno, has been adjudged insane and sent to the asylum.

### People You Like to Meet.

Are found on the through trains of the Santa Fe Route. First-class travel is attracted to first class roads. The Santa Fe Route is a first-class road.

It is one of the three largest railway systems in the world. Present mileage, 7,734 miles.

It extends from Lake Michigan to the Pacific Ocean and Gulf of Mexico, reaching with its own rails Chicago, Kansas City, Denver, Fort Worth, Galveston, El Paso, Los Angeles and San Francisco.

It runs the finest and fastest transcontinental train, the California Limited.

Its meal service, managed by Mr. Fred Harvey, is the best in the world. Its track is rock ballasted and laid throughout with heavy steel rails.

On such a road as this long distance records are frequently shattered, the latest being that of the "Scotty" Special" Los Angeles to Chicago, 2,265 miles in less than 45 hours.

Every comfort and luxury desired by modern travelers.

May we sell you a ticket over the Santa Fe.
